Summary

Selected globally for **OnTime Group, Dubai** as a Full-Stack Developer Intern. Computer Science undergraduate with hands-on experience in designing, developing, testing, and deploying scalable backend systems using **Java, Spring Boot, REST APIs, AWS, and MySQL**. Strong foundation in **Data Structures, Algorithms, OOP, System Design, Operating Systems, DBMS, and SDLC**. Passionate about building reliable products, solving real-world problems, collaborating in Agile teams, debugging production issues, and delivering high-quality software at scale.

Education

B.E. in Computer Science and Engineering

2023 – 2027

Sri Krishna College of Engineering and Technology, Coimbatore

CGPA: 8.18 / 10

Technical Skills

Languages: C++, Java, PHP, SQL

Backend & APIs: Spring Boot, Laravel, REST APIs

Databases: MySQL, MongoDB, Redis

Cloud & Tools: AWS Basics, Docker Basics, GitHub

Core CS: Data Structures and Algorithms, Object-Oriented Programming

Experience

Web Development Intern | HCL GUVI ,IIT Research Park ,Chennai [Link]

Apr 2026 – Jun 2026

- Selected for internship training in **Web Development** through HCL GUVI.
- Built responsive web applications using **HTML, CSS, JavaScript, PHP, Bootstrap, jQuery AJAX**.
- Used **MySQL, MongoDB, Redis** with secure **Prepared Statements** and GitHub deployment.

Backend Developer Intern | OnTime Group, Dubai [Link]

Jun 2025 – Nov 2025

- Developed backend services for an **Employee Attendance Management System** using **Spring Boot**.
- Designed **REST APIs** for attendance tracking, verification, and management.
- Worked with **MySQL** and supported backend deployment on **AWS**.

Machine Learning Scholar (Top 5%) | Amazon ML Summer School [Link]

Jul 2025

- Selected among **Top 5% of 3000+ applicants**; built anomaly detection models with **92%+ accuracy**.

Backend Engineering Intern | Infosys Springboard

Nov 2025 – Jan 2026

- Developed and debugged backend APIs using **Spring Boot**.
- Worked on real-world backend modules, API testing, and issue resolution in an Agile environment.

Projects

Smart Attendance Platform | Java, Spring Boot, AWS [Link]

- Built a backend system to manage **student and employee attendance**.
- Designed a multi-step verification flow using **WiFi, location verification, face detection, and QR code scan** to reduce proxy attendance.
- Implemented **role-based access** for admins and users.
- Developed backend APIs for attendance tracking and management.

Women Safety SOS App | React Native, AWS [Link]

- Developed a mobile application to send **SOS alerts** to emergency contacts during emergency situations.
- Integrated **AWS SNS** to send notifications and location details to registered contacts.
- Designed the application with a simple and user-friendly emergency alert workflow.

Achievements

- **CCNA:** Cisco Certified Network Associate. [Link]
- **Google Cloud Foundations:** Certified in cloud fundamentals and Google Cloud services. [Link]
- **Winner – GSA Hacks Bengaluru:** Built a biometric attendance system prototype.
- **Smart India Hackathon 2025:** National-level finalist.
- **Adobe Hackathon 2025:** Advanced to national round.
